Message from Chairwoman- Stacey VanDevelde

Dear Supporter,

Together we brighten lives. You may never meet the families you support, or the children you help feed. Or hear the stories of the lives transformed, dreams realised and futures brightened. But they have been brightened all the same.

We are pleased to share the highlights of our work during the 2016/2017 fiscal year.

This is what you have made possible.

* 200 children at risk of hunger offered reliable access to food through school meals and snacks across the past school year.

* Up to 100 children ensured access to food during the summer months through our annual summer food programme.

* Over 25 families educated in the skills needed to make healthy, delicious and affordable meals at home.

* over \$8,000 invested in educational enrichment for at risk children.

Thanks For Supporting Our Signature Events

These are established events that the community anticipate, support and benefit from.

Advocating For The Basic Rights of Cayman's children. Our Child Month dress down day event held in May attracted over 60 corporate supporters and raised approximately \$30,000! Supporters big and small dress for a cause and join forces to raise awareness of our important work in the community by proudly wearing Feed Our Future's stylish commemorative shirts. Appreciation is extended to our annual child month dress for a cause sponsors Deutsche Bank (Cayman) Limited, Miracle Brokers, Camana Bay, and the Cayman Islands Government.

Fundraising in bare feet whilst dancing on the sand has never been better or more fun! Our popular Island Roast beach event successfully raised just over \$35,000, all made possible through our generous restaurant and beverage sponsors offering up the scrumptious fare. Mise en Place and The Bake Shop, The Chef's of the Ritz Carlton Grand Cayman, Smokin Bros, Aqua, The Lobster Pot, ABS Trade & Commerce Ltd. (aka the Cuban food station), Cocoloba, and Saucha.

Other event sponsors include: Camana Bay, Foster's Food Fair/IGA, Massive Equipment Rental, Hurley's Media, DMS Broadcasting, Mega Systems, Mike's Ice, AI Rentals, The Security Centre, Cayman Distributors Group, Intec Research Cayman Ltd., Island Supply, Best Dressed Chicken, Déjà vu Photography, Trinity and IMG Entertainment.

Special recognition and kudos go to the amazing work of our volunteer team from The Ritz Carlton Grand Cayman, Mise en Place, and Camana Bay.

Education Key

Feed our Future's life skill workshops are intended to equip the families we support with the knowledge, skills and tools required to enable them prepare healthy meals for themselves.

In November of 2016 we delivered “Getting the Most from your Money” with the help of Financial Consultant Ralph Lewis. Meal sponsorship for this evening workshop was kindly offered through Saucha Conscious Living whilst Cayman Islands Further Education Centre allowed us use of their school hall.

Our April 2017 “Cooking Matters” workshop brought together an eager group of parents and children ready to have some fun and prepare some healthy and tasty dishes. Again local and easily sourced ingredients were the main stay of the dishes prepared for the evening. Special thanks to Mise en Place volunteer Chef Julio and his team from Mise en Place as well as Feed Our Future volunteer nutritionist Chad Collins who spoke to the group about the help benefits of the dishes we prepared. The John Gray High School kitchen lab was made available to us for this event.

“Sustainable Eating.” Through Vivo's 'One for One' promotion held in early 2017 in support of Feed Our Future, Michele, Teresa and Chef Nod of Vivo Restaurant were able to share their love of food with Feed Our Future's Sir John A Cumber Primary School families at a sustainable eating dinner workshop in April. A lovely meal of coconut ceviche and vegan curry was enjoyed whilst discussing the importance of sustainable and healthy eating and the benefits of using locally sourced foods. The Sir John A Cumber Primary School hall was made available to us for this workshop.

“Educational Enrichment.” In February of 2017 Feed Our Future undertook a pilot programme together with George Town Primary School labeled Education Extra. The pilot was an extended day program focused on at risk students which sought to expand the mission of the foundation by advocating for underprivileged children to be educated, therefore advocating for children's needs beyond their need to be physically fed, but to be nourished educationally through access to specialised services such as literacy, numeracy music and art, exposing them to a broad range of learning environments. Whilst still in its preliminary stages, the initial results of this pilot demonstrate that reliable access to enrichment programmes provide for an immediate and direct benefit to the children involved, with the potential for far greater results if undertaken on a consistent and longer-term basis. Feed Our Future intends to continue to fundraise specifically for this programme, just as it does for its meal programmes, with a longer-term goal being to pilot similar enrichment programmes in other primary schools with which we already support and work. The Intertrust Foundation generously sponsored this pilot.

Summer food programme

“A Recipe for Summer”

aims to bridge the gap that summer presents for those children who rely on a subsidised meal at school. This food programme now in its fourth year is designed to expose families to healthier food options and to equip them to cook healthier foods for their children whilst fostering good habits related to the planning of meals and stretching the food available to them. Over the 8 to 9 weeks of summer this programme reach extends up to 100 children. The success of this programme is only possible through our partners in this initiative, Foster's Food Fair/IGA and Best Dressed Chicken. The 2016 A Recipe For Summer Programme was sponsored by: Greenlight Re, Rotary Central, Management Plus Ltd. and the Cayman Masonic Children's Foundation. Rotary Sunrise signed on as the generous sponsor of Feed Our Future's 2017 summer food programme - donating \$15,000.
